CLINICAL LABORATORY MEMORANDUM

Date: March 29, 2021

To: CAMC Medical Staff

From: Milton Plata, M.D.

Department of Pathology

A handwritten signature in black ink, appearing to read 'Milton Plata, M.D.' with a period at the end.

Subject: Change to Free T4 Pediatric Reference Ranges

On March 29, 2021, the Pediatric reference range will be updated for Free T4. The Adult reference range will remain the same. The new range for ages 3 to <19 years will be 0.61- 1.23 ng/dL. For ages <3 years there are no established reference range at this time for FT4 tests performed at CAMC. The Mayo Laboratory FT4 assay can be ordered for patients <3 years old.

For any further questions, you may reach the Laboratory Manager.

Memorial - Della Haynes at 304-388-4184

Teays Valley – Angela Warner at 304-757-1769
