

IMPORTANT CLINICAL LABORATORY MEMORANDUM

Date: August 18th, 2025

To: CAMC Providers
CAMC Staff
CAMC LabWorks Clients

From: Vandalia Health Southern Region Laboratories

TOPIC: September 1st (Labor Day) Schedule for Reference Lab Testing

EFFECTIVE: August 29th to September 1st, 2025

Mayo Clinic Laboratories' specimen pickup and delivery schedules will be altered due to the Labor Day Holiday. There will be no courier pickup on Monday, September 1st. As a result, Vandalia Health Southern Region Laboratories will be holding all samples at our facilities from 4:00pm on Friday August 29th until Tuesday September 2nd. **Specimens must be in the specimen referral lab prior to 4:00pm to be sent to Mayo on Friday August 29th.**

We will stabilize specimens as much as possible, but some referred tests (such as bone marrows or genetic testing) must arrive in less than 48 hours. These specimens should not be collected during the above time frame as they may require recollection.

If you have any questions, please contact the Specimen Referral Department at 304-388-5954 or 302-388-4308 or Linda Minnich at 304-388-9356. linda.minnich@vandaliahealth.org.
