

IMPORTANT CLINICAL LABORATORY MEMORANDUM

Date: November 10, 2025

To: CAMC Providers
CAMC Staff
CAMC LabWorks Clients

From: Vandalia Health Southern Region Laboratories

TOPIC: Thanksgiving Holiday Schedule for Reference Lab Testing

EFFECTIVE: November 25-28, 2025

Mayo Clinic Laboratories' specimen pickup and delivery schedules will be altered the week of Thanksgiving. There will be no specimens shipped on Wednesday, November 26. **As a result, Vandalia Health Southern Region Laboratories will be holding all samples at our facilities from Tuesday November 25, 2025, at 4:00pm until Friday, November 28, 2025. Specimens must be in the specimen referral lab prior to 4pm (16:00) to be sent to Mayo on Tuesday, November 25, 2025.**

Additionally, if there is an unexpected delay, shipments picked up on Tuesday November 25, 2025, will not arrive at Mayo Clinic Laboratories until Friday, Nov. 28, 2025. We will stabilize specimens as much as possible, but some referred tests (such as bone marrows or genetic testing) must arrive in less than 48 hours. These specimens may require recollection.

Thank you for your patience, regular operating hours will resume on Friday, November 28, 2025 at 8:00am continuing through 6:30pm.

If you have any questions, please contact the Specimen Referral Department at 304-388-5954 or 302-388-4308 or Linda Minnich at 304-388-9356. linda.minnich@vandaliahealth.org.
