

IMPORTANT CLINICAL LABORATORY MEMORANDUM

Date: December 12, 2025

To: CAMC Providers
CAMC Staff
CAMC LabWorks Clients

From: Vandalia Health Southern Region Laboratories

TOPIC: Christmas Holiday Schedule for Reference Lab Testing

EFFECTIVE: December 23-26, 2025

Mayo Clinic Laboratories' specimen pickup and delivery schedules will be altered during the week of Christmas. There will be no specimens shipped on Wednesday, December 24, 2025. **As a result, Vandalia Health Southern Region Laboratories will be holding all samples at our facilities from Tuesday, December 23, 2025, at 4:00pm until Friday, December 26, 2025. Specimens must be in the specimen referral lab prior to 4pm (16:00) to be sent to Mayo on Tuesday, December 23, 2025.**

Additionally, if there is an unexpected delay, shipments picked up on Tuesday, December 23, 2025, will not arrive at Mayo Clinic Laboratories until Friday, December 26, 2025. We will stabilize specimens as much as possible, but some referred tests (such as bone marrows or genetic testing) must arrive in less than 48 hours. These specimens may require recollection.

Thank you for your patience, regular operating hours will resume on Friday, December 26, 2025, at 8:00am continuing through 6:30pm.

If you have any questions, please contact the Specimen Referral Department at (304)388-5954 or (304)388-4308 or Heather Clark (304)388-4526. Heather.clark@vandaliahealth.org
