

IMPORTANT CLINICAL LABORATORY MEMORANDUM

Date: May 21, 2026

To: CAMC Providers
CAMC Staff
CAMC LabWorks Clients

From: Vandalia Health Southern Region Laboratories

TOPIC: Memorial Day holiday shipping schedules

EFFECTIVE: May 22-26, 2026

Mayo Clinic Laboratories' specimen pickup and delivery schedules will be altered the week of Memorial Day. There will be no courier pickup and no FedEx or UPS deliveries on Monday May 25, 2026. With carrier closures, potential delays will put shipments at risk. **As a result, all specimens received after 4pm on Friday May 22, 2026, will not ship to Mayo until Tuesday May 26, 2026. Specimens shipped on Tuesday May 26, 2026, will not arrive at Mayo before Wednesday May 27, 2026.**

We will stabilize specimens as much as possible, but some referred tests (such as bone marrows or genetic testing) must arrive in less than 48 hours. These specimens should not be collected during the above time frame as they may require recollection.

If you have any questions, please contact the Specimen Referral Department at 304-388-5954 or 302-388-4308 or Heather Clark at 304-388-9526. heather.clark@vandaliahealth.org.
