

## **IMPORTANT CLINICAL LABORATORY MEMORANDUM**

Date: June 3, 2026

To: CAMC Providers  
CAMC Staff  
CAMC LabWorks Clients

From: CAMC Plateau Medical Center, Medical Director: David Webb, M.D.  
CAMC Memorial Hospital, Medical Director: Milton Plata, M.D.

**TOPIC: Ionized Calcium Testing Collected in PMC Ambulatory Locations**

**EFFECTIVE: June 3, 2026**

Ionized Calcium (IOCA) Orders ordered and collected at PMC Ambulatory Locations will be routed to Plateau Medical Center for sample processing instead of Memorial Hospital as of June 3, 2026. Specimens are stable for 30 minutes at Room Temperature, and maximum of 2 hours on ice. This affects the following locations: Labworks Beckley, Primary Care Beckley, Primary Care Fayetteville, Primary Care Oak Hill, Primary Care Princeton, and Primary Care Summersville. When IOCA orders are ordered and collected at these locations, each location will need to arrange for transportation of the specimen to PMC immediately.

For any further questions please contact Plateau Medical Center Laboratory or Ambulatory Lab Administration.

Plateau Medical Center: Lindsay Bays (304)-469-8628

Ambulatory Lab Administration: Amber Bryant (304)-388-5081
