

IMPORTANT CLINICAL LABORATORY MEMORANDUM

Date: 8/7/2026

To: CAMC Providers
CAMC Staff
CAMC LabWorks Clients

From: Vandalia Health CAMC Laboratories

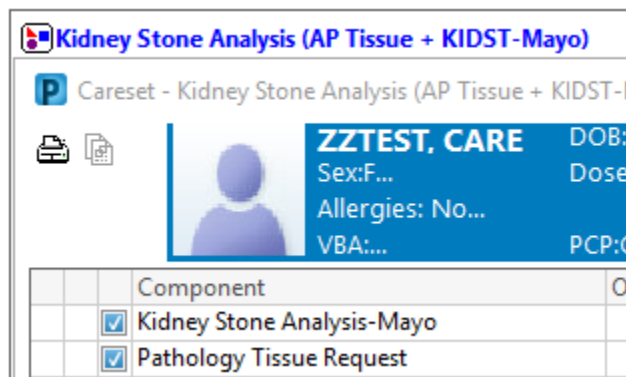

TOPIC: Guidance for Ordering Kidney Stone Analysis

EFFECTIVE: Immediately

Please refer to the following guidance when placing orders for Kidney Stone Analysis:

When ordering in the **Vandalia Health CAMC EMR (Powerchart/FirstNet)**:

- Search for and select the **Kidney Stone Analysis (AP Tissue + KIDST-Mayo)** order. This careset will order two separate components that are required for processing. Complete the required fields.

Kidney Stone Analysis (AP Tissue + KIDST-Mayo)	
Careset - Kidney Stone Analysis (AP Tissue + KIDST-Mayo)	
ZZTEST, CARE	
Sex:F...	DOB:
Allergies: No...	Dose:
VBA:...	PCP:
Component	
☒	Kidney Stone Analysis-Mayo
☒	Pathology Tissue Request

When utilizing **paper requisitions**, complete two different requisitions and send with sample:

- Complete form **17-4200 CAMC LabWorks Anatomic Pathology Request** for the pathology evaluation piece of the Kidney Stone analysis
- Complete form **17-7653 Laboratory Requisition I** or form 17-9369G Labworks Laboratory Requisition and write Kidney Stone Analysis.

Questions: Please contact the Histology Laboratory at **304-388-4332** or **304-388-4251**.
